

March 15, 2023

Dear RSCO Transportation Families:

Your transportation provider First Student and RSCO Transportation are launching FirstView, a bus tracking and parent communications app for your smartphone or desktop. **The app will be live on Friday, March 31, 2023.**

- **Live Tracking**

The FirstView map screen shows you the location and direction of your student's bus, for both morning and afternoon trips. FirstView also provides caregivers with confirmation when the trip is complete. Unfortunately, Firstview is not able to provide tracking data for early dismissal schedules at this time.

- **Customizable Bus Proximity Notifications**

With FirstView, you set up a geofence around your location and are alerted when the bus enters the geofence. The geofence size and alert times are customizable, so parents are in control of their notifications. Students should still be at their assigned bus stop 10 minutes prior to the scheduled arrival time.

- **Custom Alerts and Messages**

Set up push or email notifications alerting you when your student's bus enters the geofence. Connect up to three additional email accounts (including your own) to receive email alerts. This is a great feature for grandparents or caregivers!

- **Multi-Stop View**

Buses for all your students can be tracked with FirstView. Using individual colors for each student, the bus assigned to each student's route appears on the map in the same color as the student for easy viewing.

- **Secure and Easy Access**

FirstView requires a password-protected account for app set-up. This way, only you can view your student's stop! These codes are provided by your district/school.

- **Dedicated Customer Support**

We are here to help you. Whether you are having trouble getting started with FirstView, not seeing correct data or have an idea to make FirstView better, we want to hear from you!

Contact FirstView Monday – Friday (For assistance in Spanish, please contact the RSCO Transportation Office):
